

# Kinda Curious About Kinder Ground?

Check out how we support the farming community to elevate the welfare of animals in food production

## Education & Training

From trimming feet, to humane handling, emergency response, training farmers on the ins and outs of fitness for transport and supporting students learning how to evaluate animal welfare, Kinder Ground understands that learning is the first step on the journey to better.

**Kinda Curious About Kinder Ground is changing hearts and minds through education and outreach.** From Dairypalooza!, Kinder Hoof Care consultations, the Kinder Hoof Care Academy (KHCA), travel grants for humane handling and animal welfare judging and projects supported by students learning about welfare, Kinder Ground has planted seeds of compassion with over 100 champions and has helped ensure caregivers show up competent and capable.
