

# Kinda Curious About Kinder Ground?

Check out how we support the farming community to elevate the welfare of animals in food production

## Housing & Comfort

From better housing to rubber floors and shade to building a shelter to protect cattle from severe weather, Kinder Ground has worked with farmers from coast to coast to help them design and afford better housing.

***Making the lives of farmed animals a little better doesn't have to cost a lot.*** One of the biggest barriers to change is focusing on what we can't do or afford instead of what we can. Kinder Ground is here to encourage farmers to imagine better and then figure out how we can make it happen, even if only taking the first step. Trying new things is a lot more fun when you have someone to try it with! Kinder Ground doesn't have all the answers, but we have built a strong community that can help make sure projects have a greater chance for success.

**Kinder Ground**  
Where compassion grows

**Locations**  
PA, OH, CA, WI,  
VA, KY

**Grants**  
\$500-\$8,700

42% of project cost  
on average

## OUTCOMES

- Calves stay clean dry and comfortable
- Farm can begin transitioning to social housing
- Cows are more comfortable while standing with fewer slips and falls
