

What Is The Kinder Ground Endowment?

Gifts to the Kinder Ground Foundation Endowment are used specifically to fund the management of the organization. Endowment funds are carefully managed to protect the principal and grow over time, to secure the future of the mission. Creating change requires boots on the ground and a champion, in addition to equipment or infrastructure for specific projects. Kinder Ground Project Managers are responsible for coordinating projects through final design, approval, execution, and celebration. The endowment supports Kinder Ground staff and enables Kinder Ground's promise to dedicate 100% of its on-line donations to projects. Kinder Ground is committed to absolute transparency and welcomes review of our financials because we value your trust.

If you are looking for a way to ensure that your legacy of compassion continues to grow, contact Kinder Ground and we can walk you through all gift options. gifts@kinderground.org

How Are Gifts Recognized?

It's up to you! We appreciate any level of support. Gifts can be highlighted in social media posts, related to specific projects where the funds are used or not at all. Kinder Ground will work with you to determine what types or which specific projects you would like to support and what type of recognition you feel comfortable with.

Don't hesitate to reach out. We would love to hear from you and imagine the change your support can make happen!
